

Appalachian Trail Club Pitches In To Help Clean Up New Quarter Park In Wake Of Tropical Storm Ernesto

Yorktown, Sept. 19--Members of the Tidewater Chapter of the Appalachian Trail Club pitched in to saw trees and move debris left by Tropical Storm Ernesto at New Quarter Park. Armed with gloves and two-person saws, they made short work of clearing the parks trails on Sept. 10 to insure that the park could reopen by the following weekend. In the winter of 2005 before the Park first opened to the public, the club worked with York County to design nearly three miles of hiking trails along the ridges overlooking Queen's and Cub Dam Creeks at New Quarter Park.
